

CARGAZING

2023 JEEP GRAND CHEROKEE L

Exceptional Jeep Performance

Spacious, Three-Row Grand Cherokee L Offers Comfort and Capability

PRESS RELEASE

The 2023 Jeep Grand Cherokee L delivers exceptional performance, comfort and functionality while continuing Grand Cherokee's legacy as the most awarded and celebrated SUV ever with legendary 4x4 capability, on-road refinement, and premium styling and craftsmanship inside and out.

Built on an all-new architecture, the first ever three-row Grand Cherokee offers spacious seating capacity for up to seven passengers and individual climate zones throughout the cabin for personalized comfort. The three-row Grand Cherokee L, along with the all-new two-row Grand Cherokee and electrified Grand Cherokee 4xe, represents the most comprehensive Grand Cherokee lineup yet.

The state-of-the-art Jeep Grand Cherokee L offers an array of advanced standard and available safety and security features, including advanced driver-assist systems, 360-degree surround view and night vision cameras, plus next-generation technologies, including 10-inch digital screens, Uconnect 5 – the most advanced Uconnect system ever, windshield Head-up Display (HUD), digital rearview mirror, rear-seat monitoring camera and an exclusive, premium 19-speaker McIntosh audio system.

BY THE NUMBERS

Base Price: \$43,530
Wheelbase: 121.7 in.
Length: 204.9 in.
Width: 84.6 in.
Height: 71.5 in.
Engine: 3.6-liter V6 (293 hp, 260 ft-lbs)
Transmission: Eight-speed automatic
EPA Mileage: 19 city, 26 highway

feature electronically coordinates up to six different powertrains, 4x4 torque split, braking and handling, steering and suspension systems, including throttle control, transmission shift, transfer case and traction control, stability control, anti-lock braking system (ABS) and steering feel.

The Selec-Terrain system offers five available terrain modes (Auto, Sport, Rock, Snow, Mud/Sand) to provide optimized calibrations for any given driving scenario.

Hill-descent Control allows drivers to control Grand Cherokee L's speed down steep, rugged grades with electronic paddle shifters standard on all models, without the need for throttle or brake pedals. Hill-descent Control is standard on Overland and Summit models and works both in forward and reverse.

NEW FOR 2023:

Features that are new on 2023 models include:

- Uconnect 5 NAV with 10.1-in. digital touchscreen standard on Limited and Overland models
- Nine-speaker Alpine audio system available as standalone option on Limited model
- 19-speaker McIntosh audio system available as standalone option on

Overland and Summit models

TECHNOLOGY

The Grand Cherokee L offers the most available technology features in its class. With the addition of new front and rear interactive displays, the Grand Cherokee L now boasts more than 50 inches of total available digital screen space.

Front- and rear-passenger screens feature an HDMI plug to project wireless device

content onto the screen and through the Uconnect 5 system. The front-seat passenger can also easily monitor, as well as stop, start and pause, rear display content.

CAPABILITY

The Jeep Grand Cherokee L delivers improved unrivaled capability along with composed on-road driving dynamics. Legendary off-road capability begins courtesy of three 4x4 systems – Quadra-

Trac I, Quadra-Trac II and Quadra-Drive II with rear electronic limited slip-differential (eLSD). All three systems are equipped with an active transfer case to improve traction by moving torque to work with the wheel with the most grip.

The Grand Cherokee L's class-leading Selec-Terrain traction management system lets customers choose the on- and off-road setting for optimum 4x4 performance. This
