

CARGAZING

2024 TOYOTA VENZA

Sculpted Sophistication

PRESS RELEASE

The Toyota Venza is the all-Hybrid crossover that's in a league of its own.

Exclusively available as a Toyota Hybrid Electric Vehicle (HEV), it can make the best of every ride with a manufacturer-estimated 39 combined MPG.

Add in elegant crossover style, a tech-focused interior, and standard Electronic On-Demand All Wheel Drive (AWD) and it's a package that is both distinctive and practical.

The 2024 Venza is available in LE, XLE, and Limited grades, as well as the uniquely stylish Nightshade edition.

Based on the XLE trim level and available in three exterior colors, the Venza Nightshade features black-out trim for a distinctive presence.

The Venza's undeniably eye-catching design combines with a fashionable, quiet cabin for a package that makes an impression. Its stunning alloy wheels, LED projector headlights, and continuous, thin rear LED taillights give Venza a strikingly modern look. The Toyota HEV System and standard AWD give it a blend of efficiency and utility that's at home on long road trips or during inclement weather.

The Toyota Venza is a tech-infused premium crossover with a standard hybrid powertrain.

NIGHTSHADE

The 2024 Venza Nightshade Edition is available in three premium exterior colors – Celestial Black, Wind Chill Pearl or Ruby Flare Red, each boldly accented by an array of black trim for the interior. The Nightshade shows a true designer touch, starting with the acrylic front grille trim, black-painted outer mirror caps, door handles, rocker panels and available black roof rails. The lower

bumpers are complemented in front and rear by smoked chrome moldings as well. The black shark fin antenna is a crowning touch.

All three colors of 2024 Venza Nightshade Edition ride on 19-inch gloss-black multi-spoke aluminum alloy wheels. LED fog lamps, standard on XLE and Nightshade, shine bright through the darkness. For Nightshade specifically, this can also be paired with the

available Star Gaze Panoramic Roof.

EFFICIENCY

The Toyota HEV System in the Venza combines a high-efficiency 2.5-liter DOHC four-cylinder engine with three electric motors and a lithium-ion battery in a highly compact system. The gas engine employs Variable Valve Timing-intelligent system by Electric motor (VVT-iE) on the intake camshaft and

VVT-i on the exhaust camshaft. A variable cooling system (electric water pump and electric thermostat) and a fully variable oil pump further help improve engine efficiency.

Toyota's proven hybrid tech seamlessly delivers 219 total system horsepower for lively performance in the Venza. As with all Toyota hybrids, the feeling of everyday acceleration and responsiveness is heightened by the way the electric motor

BY THE NUMBERS

Base price: \$35,070
Wheelbase: 105.9 in.
Length: 186.6 in.
Width: 73 in.
Height: 65.9 in.
Power: 219 combined horsepower from hybrid system
Transmission: Continuously variable
Estimated mileage: 40 city, 37 highway

boosts low-speed torque. The hybrid system optimizes the level of electric motor assistance and gas engine RPM without the engine running at high revs. Engine speed is synchronized with vehicle speed, yielding effortless and quiet acceleration.

QUIET CABIN

The 2024 Venza provides a gratifyingly quiet cabin atmosphere. Critically, Toyota engineers focused on creating a calm interior conducive to enjoying easy conversation or hearing music in clearer detail.

The high-strength TNGA-K platform is the first defense against noise intrusion, curbing vibration through the steering, floor and structure. Suspension tuning resists road surface disturbances, helping to reduce tire noise.
