## Half Marathon Training Plan Key

Rest or Cross Train: Can be a rest day (no running), or a cross training day. Cross training can include strength training, flexibility, yoga, or any aerobic activity. These may include elliptical, cycling, swimming, etc.

### Paces:

To help you with your training paces I suggest you use our Training Pace Calculator. This will help you find all your appropriate training paces.

Some quick definitions:

M: miles

M: meters

HMP: Half Marathon Pace (Your goal pace)

HMP-10s: Half Marathon Pace minus 10 seconds/mile. For example if you see 4x1.5M @ HMP-10 that means 4 times 1.5 miles at your goal half marathon pace, minus 10 seconds per mile. If your goal half marathon pace is 8:00/mile then your goal pace for this workout would be 7:50 per mile.

Resources: To help you out, we have a number of resources to help you.

Hanson's Coaching Services is a great site to access all of our blogs and podcasts. It's also your first step if you are looking for individualized coaching or a custom training plan.

The Hanson's Half Marathon Method is your best place to start! If you want to dive in more to the training philosophy and methodology. You can purchase from me, but is also available on sites like Amazon, Barnes and Noble, and other book retailers (electronic versions, too).

Facebook Group: The Hansons Marathon Method Community is a FREE close group (just ask for permission) where thousands of members are using or have used the programs to train with. A great opportunity to reach out to fellow runners using the same training plan.
