

SOLO 20

ACCENT SPOTLIGHT | SURFACE MOUNT

TUNABLE WHITE

OVERVIEW

Solo 20 Tunable White delivers ultimate flexibility in lighting design, offering control over colour temperature independently of brightness to suit a wide range of applications. Two distinct colour ranges are available: a super-warm to neutral option (1,800K to 3,000K), ideal for hospitality and residential settings, and a warm to cool option (2,700K to 5,000K), designed for tonal adjustments for artworks or human-centric lighting applications.

KEY FEATURES

- Tunable White light engine available in 2 CCT ranges
- Concealed hinge allows full 360° locking pan and 90° Tilt
- High output single source light engine
- Customisable with a range of optical accessories and holders
- Decorative surface mount plate with concealed screws

PERFORMANCE SUMMARY

	1800 - 3000K				2700 - 5000K

TUNABLE WHITE TECHNOLOGY

Precision's Tunable White technology allows users to adjust the correlated colour temperature (CCT) of their fixture on demand, with options for analogue, digital, or wireless control. Two tuning ranges are available to suit a range of applications. Ultra-warm 1800K to 3000K is perfectly suited to mood-setting in residential and hospitality applications. Alternatively, 2700K to 5000K allows tuning between warm and cool light to support human-centric applications, or tonal adjustments when lighting artworks. By default, our tunable white fixtures are biased towards maximising the total lumen output across the tuning range, but it is possible to configure the fixture to maintain light output instead. Speak to your sales rep for more details.

LIFETIME + ENVIRONMENTAL

At Precision, we design and engineer our products with longevity in mind. Many of the components that make up our light fixtures are both modular, and re-usable, making it possible to service and repair them throughout their life in service. Once our products reach the end of their useful life, it is possible to re-work and renew them in to a new product. We prioritise the use of recyclable materials in both our products and packaging, and encourage our customers to engage responsibly in the correct disposal of any materials we supply.

PRODUCT ANATOMY

- 1 High Output COB Light Engine with Tunable White technology
- 2 Interchangeable Colour Mixing TIR Optic
- 3 Integral Double Accessory Holder
- 4 Range of Optical Accessories
- 5 Accessory Retention Clip

INTEGRATED ACCESSORY HOLDERS

Double Accessory Holder

Built-in to Solo 20 Tunable White

Accessory Dia.    Ø68mm | Ø2.68"

Capacity            5.0mm | 0.2" Max Thickness

GLARE GUARD ACCESSORY HOLDER

The Glare Guard Accessory Holder is an angled, snap-in snoot extension capable of holding a range of optical accessories, including honeycombs, gels, and beam shaping optics such as Wallwash and Linear Spread Lenses. The holder comprises of two halves, a front compartment and a rear compartment. The rear compartment is capable of holding a single accessory, whilst the the front compartment is used to hold orientation dependent beam shaping optics such as the Wallwash and Linear Spread lens.

	a. Front Compartment	b. Rear Compartment
Accessory Diameter	Ø66 mm   2.60"	Ø68 mm   2.67"
Capacity	1.2mm   0.05" Max. Thickness	3.2mm   0.125" Max. Thickness
Orientation Indexing	Yes - Alignment Notches	No
Weight	Aluminium: 114g   Brass: 287g	
Ordering Codes*		
 Black	1120-GLR-01-BK	 Polished Brass 1120-GLR-02-PB
 Traffic White	1120-GLR-01-TW	 Brushed Brass 1120-GLR-02-SB
 Brushed Aluminium	1120-GLR-01-AL	 Rubbed Bronze 1120-GLR-02-RB

Orientation Indexing

For optical accessories that require a specific orientation, use their alignment notches to position them correctly within the Glare Guard Accessory Holder.

Wallwash Fixture Angle

For optimum performance, the fixture should be angled at approx. 30° from the vertical plane.

Wallwash Positioning and Pitch

Wallwash fixtures should be positioned one-third of the ceiling height away from the wall and spaced apart by the same distance.

SNOOT ACCESSORY HOLDER

The Snoot Accessory Holder (sold separately) enhances the Solo 20's optical accessory capacity while adding decorative trim in a variety of complementary finishes. Its snap-in, snap-out mechanism is completely tool-free, making on-site adjustments simple and ensuring the holder fits flush with the snoot's front edge.

Accessory Diameter	Ø68 mm   2.67"
Capacity	3.2mm   0.125" Max. Thickness
Orientation Index	No
Weight	Aluminum 31g   Brass 91g
