5

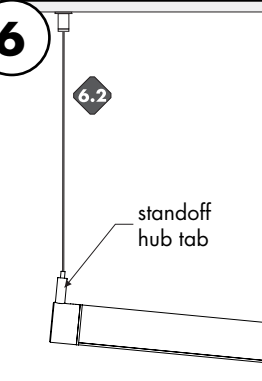

5.1 Untangle each aircraft cable and insert into the threaded post until the cable stopper.

5.2 Push on the standoff hub tab and feed the aircraft cable into the standoff hub until necessary. Release tab to secure in place. For the aircraft cable closest to the coaxial cable slide through the o-rings on the coaxial cable first.

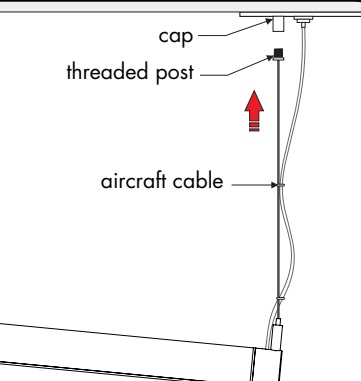

5.3 Remove the clear protective film from the face of the lens.

6

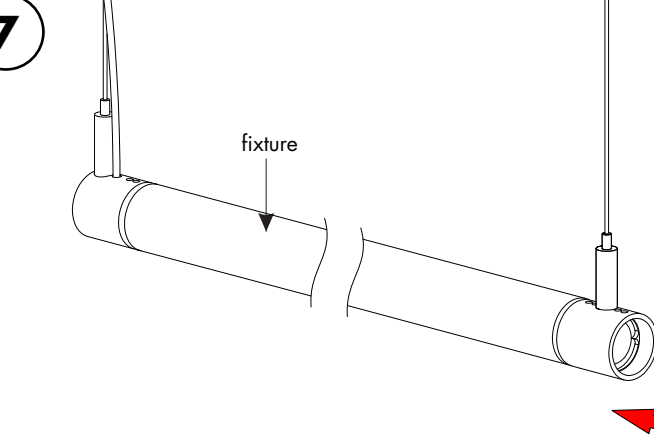

6.1 Tighten each threaded post into a cap, one will be on the backplate and other(s) on the ceiling. If fixture not leveled, adjustments can be made by pushing on the standoff hub tab. Then either feed more cable into the standoff hub or pull out cable from the standoff hub and release to secure.

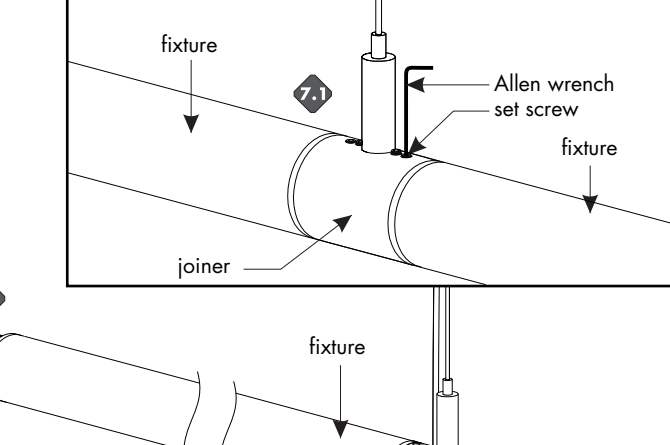

6.2 Cut off any extra aircraft cable from the standoff hub hole.

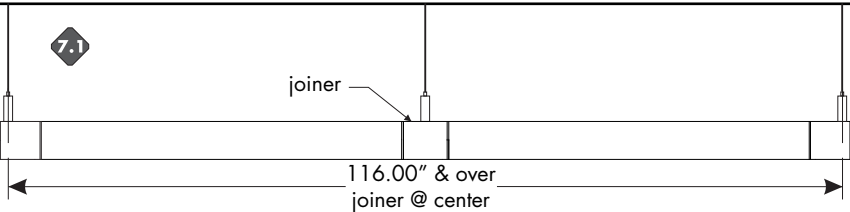

7

7.1 If joining fixtures together, insert the fixture end into the corresponding fixture. Secure by tightening the two set screw that is the closest to the fixture. Reference drawing above as reference, to join correctly.

7.1 If joining fixtures together, insert the fixture end into the corresponding fixture. Secure by tightening the two set screw that is the closest to the fixture. Reference drawing above as reference, to join correctly.
