Unfortunately, I do not have red side access. Reach out to [REDACTED] in CACHTU for the CID case file. She must give them access to the file.

In addition, they would like to include a 302 to document this request. I advised SSA [REDACTED] no to add any serial to the 50D case file.

[REDACTED] would you mind sending me the HQ file number so maybe they can add the 302 there, pending your approval.

Thank you.

FYI, WFO executive management did not want to send us the scanned photos of the passport and are having an ERT person go to the Evidence Office to take pictures of the passport and they will send us those. ERT person is almost at the evidence office.

EFTA01656360

I found an agent who was 5 minutes out from the Evidence building and she is currently scanning the passport.

On a side not and by coincidence, the same agent has an urgent request for NY to do a PC arrest of an IPKA subject scheduled to leave JFK at 11:20 am. CT-23 has been contacted to assist and C-20 agents are on there way to airport.

Sir,

Unfortunately, we don't have photos of additional pages from the passport (at least not in Sentinel.) We need to check for the original SW evidence photos disc, but I am not sure they took photos of additional pages.

Thank you.

Sir,

The Austrian passport was in **MARIUS ROBERT FORTELNI**'s name with Epstein's photograph. Please see photo attached (not helpful.) The original Search Warrant-Evidence photos were saved in a disc, and I cannot access them in Sentinel.

Please let me know if anything further is needed from us.

Thank you.

Best,

Good afternoon, Sir,

We are tracking FBI NYO seized one Austrian Passport with Epstein's photo and a different name (**1B76**), and we knew of five U.S. expired passports. We don't have any additional documentation to show that he traveled under a different name.

Please let me know if anything further is needed from me.

Thank you.

Best,
