Good Afternoon,

After speaking with Gary Kearney and Brice about the upcoming plant shipment from Puerto Rico, we are all in agreement, that:

The best thing to do is make two different shipments. Mainly because All of the areas are not yet ready to be planted. Also Especially since there is no real disadvantage in doing so Regarding shipping with Tropical.

One shipment now (May/2011) ,and one in about 60 days.

For the first shipment I will go to Puerto Rico this week and select and tag =

- 6 Bottle Palms (For the only area ready to plant by the Western Pool)
- 10 Coconut Palms (To be Planted Between Master Bedroom and Library)
- 50 Citrus Trees (For Pops Garden/ Fruit Orchard)
- 600 Red Ginger Heliconias (For Master Bedroom)
- 40 Large Bouganvilla (For Entry Basket)
- 600 mondograss (Ground Cover for Master Bedroom/ ground cover)
- 1000 Fig Ivy (To cover the Boulders of Entry Basket)

This shipment will take :

- two 40' flat rack platforms (for trees)
- one 40' Refrigerated Container (for flowers and delicates)

Thank You,

Igala
