Subject: Re: Accident in apt 10P

Hi Lesley, I heard about it this morning. I supposed to come today to clean it but my sister told me not to worried until Monday I feel sorry for Dave hope he's okey! I can suggest not to have any glass table for the apartment just for safety. Thank you for for letting me know about this matter. i'll be careful cleaning on Monday so I don't cut myself in any glass that left in the apartment. Thank you.

[REDACTED], I want to alert you that Dave our pilot had an accident in apt 10P... He fell into the coffee table and it shattered. He sliced his knee and wound up in the hospital all night getting stitches. There is glass everywhere and blood. Do not attempt to clean up the glass until we can provide you with proper gloves. You need Kevlar type gloves. But you can use rubber gloves to clean up the blood. Sorry bout this. But dave is sorrier I assure you! We will need apt 11B cleaned also. Thanks Lesley
