> [REDACTED] I want to alert you that Dave our pilot had an accident in apt 10P... He fell into the coffee table and it shattered. He sliced his knee and wound up in the hospital all night getting stitches. There is glass everywhere and blood. Do not attempt to clean up the glass until we can provide you with proper gloves. You need Kevlar type gloves. But you can use rubber gloves to clean up the blood. Sorry bout this. But dave is sorrier I assure you! We will need apt 11B cleaned also. Thanks [REDACTED]
