Subject: New bed for [REDACTED]?

[REDACTED], [REDACTED]'s friend is due to stay in apt starting this Friday for up to 2 weeks. I really wanted to put her in [REDACTED]. We can put her in one of the others but since she is there so long I wanted to keep the others available. Is it possible to order a bed and install by Friday? A platform bed of some kind? Or screw it and put her in [REDACTED]?
