[REDACTED] is on his way back! He needs to wash his hands and face when he comes in from recess :)
Double ear infection and allergies...tis the season...

Hi [REDACTED]
Thanks for letting me know. He's been coughing a lot, but other than that he seems fine. We have lots of coughing going on this week, so it's not out of the ordinary. I would see what the Dr. thinks!
Thanks-
Jackee

good morning Jackie...[REDACTED] has a doctor appt today at 10:30 with Dr. Pierce...I know he has an ear infection and we want him to get on the medicine right away. His nanny, Gloryana Perez will come pick [REDACTED] up about 10:10 and get him to the doctor. I left a message with Kathy in the nurses office as well on the machine.

I have asked that the doctor determine if he thinks [REDACTED] should go back to school...I thought he seemed fine, but sometimes I feel like it is hard to determine! If you think he doesn't seem right, email me back and let me know please (not sure when you are able to check your emails though)

Thanks, [REDACTED]
