We typically don't do a full nerve block, as it is more dangerous than topical numbing while injecting. We do a topical medical grade lidocaine and also ice, though the Dr. did say that if the patient was very afraid or hesitant we could possibly make an exception.

Best,

Angie

Ok super...And with the lip injections, can you have a nerve block?
(They hurt!!!)....

Hello [REDACTED]

Yes, our RN, BSN, Jesenia is an experienced nurse injector and we have Dr.

Al-Misky also, who does cosmetic injections as well as veins. Both practitioners can perform a full range of injections with HA fillers and neurotoxins.

Best,

Angie

Hello NicoleŠI am wondering if any of the
Eskinovators' do fillersŠ?
Botox, Juviderm, lip injections?

Please let me know!

Thanks.
