Subject: kk is here

kk is here. they played bb for 10 min...and now they are upstairs in game room playing video game...I guess that is ok...need to order that ping pong/billiard table! I was looking at them last night. [REDACTED] ate pasta and sat at the table with KK...they were talking about how KK's mom can be scary like you can be scary, but [REDACTED] said I was scary yesterday (I was very serious with him) KK said her dad is not scary...he is a 'bean pole' she said...
