Jeffrey, I am a girl from the village :)
Grew up in the middle of forest surrounded with nature and animals :) I use to go to get milk from this old lady who loved and spoke hours with her cow! Took warm eggs strait from hans! Was running barefoot on the snow and eating ton of garlic! It is normal that I am still close to nature :)
It will take time :)

no no, i m not suggesting being an enemy, im suggesting that because you are beautiful, most men say yes yes, yes, , I don't hate you for anything, especailly not for your opinions. I just want you to learn, and not be stubborn,, so far , Ive seen no indication that you are really open.. Why I like teaching at univerisities is that the students are serious about wanting to learn, Usually at the best schools the first day , the student is taught that the vast majority of what they thnk or belive is inaccurate . and if they want to get ahead they have to really study and forget their child hood beliefs. Thats at the good schools. at the shitty ones, they tell you . plase pay your money , and anything you think has merit.

Hahhaha! Jeffrey, friends don't become enemies if they hold different believes :) Jeffrey hates Dite for her opinion :)
and I don't think that I am right but it works for me and I still believe in it. I listen and I m open for new information and if that information will change my believes I don't mind.

dite, pepto bismol , has saved millions of lives. saved lives. the side effect was staying alive..
Dite, I am willing to advise you, guide you , help you, if you want. IF it is more important for you to " be right" , then really learn something useful and new, I completely understand, You are your own person with your own tightly held beliefs and you have done a remarkably good

job of getting what you want .. I remain your friend jeffrey

you are too smart to believe that what is good for you , a twenty two year old healthy girl , with wonderful genes. has any benefit for someone less fortunate.. Dite, medicine and Health are serious fields , they do not and cannot and should not be related to your personal beliefs. or your personal health. I encourage you to learn real things. universtity classes. that offer recognizd degrees. as opposed to magical, belief sgounded in nothing more than your own personal experience and folk law. Spending time in the lab is the result of a desire to work really hard to help people. Polio small pox,dysentery were not cured or helped by hundereds of people over hundreds of years, these terrible disease were only cured by western medicice in a laboratory, with real results that can be duplicated,

How many side effects has this pepto bismol... You heal one place in our body,but destroy little by little others... At least than you r busy healing yourself all the time... And pharmacists make good money :)

All the pains is for the reason I think. you ate bad-next day you will have headache,you have cramps on your period-deal with it,bec mother nature is preparing u for labor!!! And here everybody is crazy about all pills!

I am not a genius that spends hours in labatory but I listen to my body.

I prefer talking on the phone than emails. (old recipe?) , PLease read all about double blind studies, and what it means for rational thinking. Also the difference between cause and coincidence. I feel sad when people like Richard and his Wife Corey, tell me I am being careless , by not taking the time to explain things to you. THeY thought you were charming, and pretty , but would always be at a disadvantage , by not taking the time to learn real things as opposed to eastern europe superstitions masquarading as facts . They tortured me, with the idea that young women of your age , could still be confused about things that make you feel good , and things that cure disease. prayer, homeopathy, foot cleansing, energy work, have been with us for thousands of years, not one of those has the same power as pepto bismol. the drug store cheap solution to digestive issues.for example
